# More Help, More Projects

“Come Over ONCE AGAIN to Macedonia and Help Us”

## Yan's Arrival (Part 2)

This month we've had a reinforcement arriving from Niterói, Brazil, from Comunidade Shamah (a church that's in alliance with mine): missionary Yan Miguelote. He has been with us in the last Missionary Weeks of Projeto Flechas Para as Nações (Arrows For The Nations Project) and also in the Projeto Ribeirinhos Para Cristo 2009. We had challenged him and his leadership to be a part of this Germany Project and, by the grace of God, the challenge was accepted and he'll spend one year here working with us.

He has already started German classes and has helped in some of the church's programs, like Bible study and at *Hauskreis* (home group). Please put him in your prayers as well.

## Service in Trier

About a month ago we went to Trier for the first time. It is the oldest city in Germany, founded almost 2 thousand years ago, and was a part of the Roman Empire. Karl Marx (considered one of the founders of Communism) was born and raised there. It's really close to Belgium and Luxembourg, which we took the opportunity to visit and take some photos.

Some brothers there had contacted ps. Sérgio so that we begin ministering there, since no pastors live in the city. We promoted a service on a Saturday, about 3 weeks ago. Last week some of the worship team members of our church took part in a service held by a Lutheran and a Catholic church. We could see how there is so many people still hold up by Religion. This weekend we were also over there, where a sister opened the house for us to hold another service.

With Yan, in Frankfurt

We have plans to send someone over there to lead this work, but as of now we will travel there more frequently to start this project. It is another challenge, since that city is so important spiritually. We know there will be Spiritual Warfare, but in the Lord we will be victorious!

We're still uncertain about the details, since Trier is not so close from here (about 2 hours by car) and it becomes hard to really take care of the people. We're praying so that we take the right decisions about the start of this congregation and so that many people will be reached. Please pray with us also!

*Service in Trier*

## Poland

A few months ago ps. Sérgio introduced us a new challenge: an evangelism project in Poland, called „Fang Den Wind“ (“Catch the Wind”). It's a project organized by AVC Nehemia, a missions agency that is already working in several nations. The director, brother Pawel Sturz was with ps. Sérgio in Brazil, together with the “heavenly man”, in April early this year. He also came to our church and shared about the importance of the re-evangelism of Europe.

The project lasts for 4 weeks, and takes place in four areas of Northeastern Poland, and will reach about 15 cities. We will be helped by some churches in Poland, but most of the participants will come from Germany. Speaking only German during this project will be a great challenge! Pray so that we can solve some last details! I will be traveling this weekend!

## Home Groups

We've really engaged ourselves in the home group we have on Fridays. By God's mercy I've already been able to talk a little “in public” in Germany, without being afraid of making a mistake. I still need translation for the message, though.

We've gotten really close to the youth that go to the Hauskreis and the biggest challenge has been the adaptation of the way of thinking and the culture of Germans. Most of the people that come have already given their lives to the Lord, but we have some that haven't yet, and many times we feel how hard it is for them to receive some parts of the message. But by the grace of God we've been able to show how the life of someone walking in Jesus' path is different from others. Please pray so that we can each and every day be more effective in their lives.

Gottes Segen auf euch! (God bless you!)

*Downtown Trier*
